Monroe, GA 30655 ♦ [www.edenremediation.com](http://www.edenremediation.com)

## *WHO WE ARE*

Eden is a subsurface remediation services company located in metro Atlanta. Eden offers in-situ and ex-situ chemical solutions to aid consultants and end users in site restoration. Our remedial solutions are unique to each site and are intended to reach site closure as quickly and economically as possible. Our professionals are well acquainted with the challenges of soil and groundwater remediation and are committed to offering not only front end assistance but follow-up professional services for the life of the project, often at no additional charge. The following is a list of our key services:

- **In-Situ Chemical Oxidation (ISCO)**
- **In-Situ Chemical Reduction (ISCR)**
- **Enhanced Bioremediation**
- **Surfactant Applications**
- **Treatability Evaluations**
- **In-Situ/Ex-Situ Soil Blending**
- **Remedial Design and System Optimization**

## *OUR HISTORY*

Eden was founded by Ken Summerour, P.G., a pioneer in the ever expanding field of In-Situ chemical based remediation in the southeast US. Mr. Summerour began his career in the early 1990s with fixed based fluid recovery systems that rarely achieved target clean-up goals. After successfully treating a source area using ISCO, Mr. Summerour utilized ISCO to treat a large dissolved plume under an auto dealership building, resulting in a NFA facilitating a property transaction. Mr. Summerour later founded Eden to share his knowledge with the consulting community as well as property owners seeking cost effective solutions for subsurface remediation.
